

◀ comments, it was part of Odd Erik's intention "to bring turning to people who would find it difficult to travel to Stavanger."

The Woodturning Cruise 2008 will take place on a new, more spacious incarnation of the MS GANN, promising higher standard cabins, all of which have a shower and toilet. The first-rate crew is friendly and the chef is outstanding. All meals are served onboard the MS GANN and are based on traditional Norwegian recipes and international dishes.

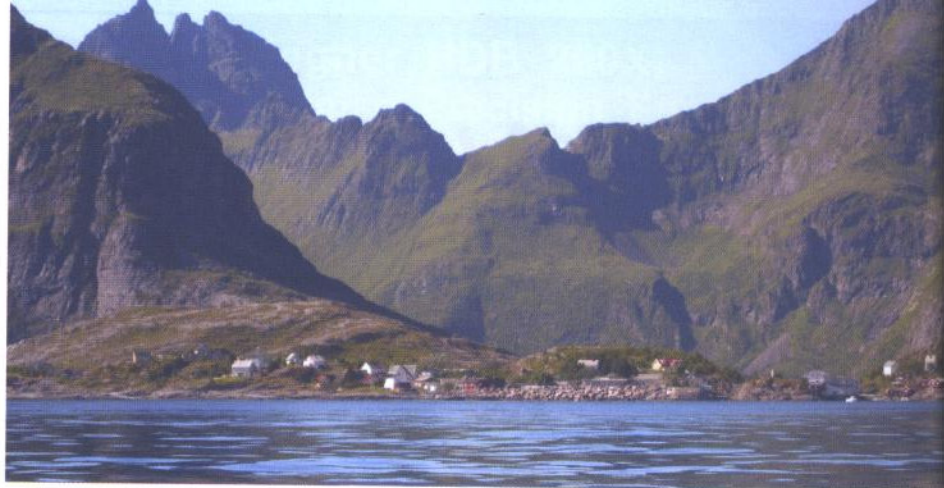

Former demonstrator Stuart Mortimer believes that what makes the Woodturning Cruise such a fantastic trip is that it "is a chance in a lifetime to explore turning and sightseeing in one great venture." The Woodturning Cruises are so popular that many passengers return again and again.

Departing 11 August 2008, the itinerary comprises 11 days of stunning scenery, relaxation and woodturning, with plenty of opportunities to make new friends and learn new skills. ■
